Linda Zhou

Web Developer / Web Design
New York

Summary

Creating visually appealing interfaces while being readable
and responsive.
Able to style a site to the target user audience
while creating functional objects (components).

CSS | JavaScript | React | Illustrator | Photoshop

Experience

General Assembly
Web Development Immersive | Engineer Fellow
March 2018 - June 2018 (4 months)
New York City

After learning a set of skills, we were to use them to create products that we
thought up of and was given the okay to go ahead with our ideas.

Projects:

No More Cuteness- RPG game(role playing):
https://inkpi.github.io/rpgGame/
https://github.com/InkPi/rpgGame

WorkSpace[Team project]:
https://github.com/TimLiederbach/Workspace-Project

Post It You Life (CRUD functions of Form Posts and User Authorization with
React and Rails):
https://github.com/InkPi/PostItYourLife

First Place for GA's First Team Hackathon: Collab with 2 UX/UI designers.
Team also made up of six Web Development Immersive students in total and
we split the tasks up to Front End group and Back End group. The assignment
was an imaginary 3 week long project the team has to plan out for which was

a program on how to make life better for the students of GA. It began with the UX/UI designers giving out postits and questions for everyone, including themselves, to answer which was then reorganized on a wall with similar answers grouped together. Then WDI students need to figure out how to translate it into code for the program. Then we all get together to make a presentation for it and present it to the judges and other teams.

Alliance Computing Solutions
Web Developer (contract)
August 2015 - May 2016 (10 months)
Flushing, New York

- Continued to update contents and redesign acs.edu
- Did the same the line above for their recently completed site cambridge-edu.com (another institute they own at Manhattan). - Worked on my own majority of the time

Alliance Computing Solutions
Web Developer Intern
July 2014 - April 2015 (10 months)
Flushing, New York

- Updating and adding contents inside and helped redesigned acs.edu with a premade template.
- Worked with a contracted Web Developer
- Did some coding styling modifications for their sites
- Helped with printing papers and taking calls from customers
